

Flat roof hood FDH

For the connection of ventilation ducts, up to NW 160, above the roof. Made of weather-resistant plastic with wide adhesive edge. cold and heat-resistant up to +200 °C. Removable hood head for inserting the supplied spacer band or insulation to be provided by the customer. The insulation prevents condensation.

FDH Ref. no. 01477

Roof hood DH

The optimal ventilation solution without static pressure loss. Made of weather-resistant polypropylene, with driving rain-resistant, removable outlet hood. Air flow temperatur range from -20° to +60°C. Connection to ventilation duct using pipe joint STV (accessories) which prevents the outlet of condensate at the connection point. The following roof pan tiles should be used for the installation of the roof hood:

□ Universal roof pan tile UDP
Compatible with almost all tile
types, in black or brick red.
For roofs with slope angles of
25–45°

☐ Flat roof pan tile FDP

Made of aluminium for flat roofs.

■ Product range: Order hoods, pan tiles, pipe joints separately.
